

## 1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

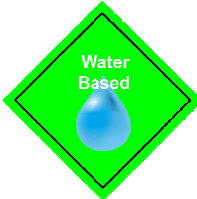

Product Name: **992 Sports Floor Cleaner**  
 Product Code: 992  
 Recommended Use: Cleaning Agent.  
 Supplier: Topline Paint Pty Ltd t/as Shipway Spescoat  
 ABN: 65 007 626 191  
 Street Address: 33 Aldershot Road  
 Lonsdale SA 5160  
 Australia  
 Telephone Number: +61 8 8384 1188  
 Facsimile: +61 8 8326 1824  
 Email: info@toplinepaint.com.au

## 2. HAZARDS IDENTIFICATION

This material is non-hazardous according to criteria of Safe Work Australia; NON HAZARDOUS SUBSTANCE.

Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail; NOT DANGEROUS GOODS.

<b>Signal Word (s):</b>	None				
<b>Classification of the substance or mixture:</b>	None				
<b>Hazard Statement (s):</b>	None				
<b>Pictograms:</b>					
<b>Precautionary Statement Prevention:</b>	P233 Keep container tightly closed. P281 Use personal protective equipment as required.				
<b>Precautionary Statement Response:</b>	None				
<b>Precautionary Statement Storage:</b>	None				
<b>Precautionary Statement Disposal:</b>	P501 Dispose of contents / container in according to local regulations.				

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

Components	CAS Number	Proportion	Risk Phrases
D-limonene	598-27-8	95.01% - 100%	
Impurities	N/A	To 100%	-

## 4. FIRST AID MEASURES

For advice, contact a Poisons Information Centre 131 126 or a doctor.

**Inhalation:** Remove from exposure. Keep warm and at rest until full recovered. If there is respiratory distress or aspiration has occurred, seek medical treatment.

**Skin Contact:** Remove contaminated clothing. Wash affected areas with copious amounts of soap and water. If irritation persists, seek medical attention.

## 4. FIRST AID MEASURES cont

**Eye Contact:** Rinse immediately with plenty of water for several minutes. Seek medical treatment if symptoms occur.

**Ingestion:** DO NOT induce vomiting, as aspiration may occur and cause lung damage. Seek immediate medical attention.

**Further Medical Treatment:** Symptomatic treatment and supportive therapy as indicated.

## 5. FIRE FIGHTING MEASURES

Not classed as flammable. If involved in a fire, it may emit noxious and toxic fumes.

**Extinguishing media:** Use extinguishing media suitable for surrounding area.

**Fire Fighting:** This material is not a flammable liquid or combustible liquid. Fire fighters should wear self contained breathing apparatus (SCBA) and complete protective clothing.

**Hazardous Decomposition Products:** Decomposes on heating emitting oxides of carbon.

## 6. ACCIDENTAL RELEASE MEASURES

**Emergency procedures:** Material may be slippery when spilt. Walk cautiously. Ventilate area. Wear protective gear such as protective gloves to avoid skin contact. Bund area using sand or soil to prevent run off into drains and waterways. Collect and seal in properly labelled containers for disposal.

**Methods and materials for containment and clean up:** Absorb spillages in sand, earth or any suitable absorbent material.

## 7. HANDLING AND STORAGE

**Conditions for safe storage:** Limit all unnecessary personal contact. Wear protective clothing when risk of exposure occurs. Use in a well-ventilated area. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers securely sealed when not in use. Avoid physical damage to containers. Always wash hands with soap and water after handling. Work clothes should be cleaned separately. Use in a well ventilated area.

**Precautions for safe handling:** Store in original containers. Keep containers securely sealed. Store in a cool, dry, well ventilated area. DO NOT allow freeze. Store away from incompatible materials.

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Occupational Exposure Limits:** No exposure standards have been established for this material by the National Occupational Health And Safety Commission (NOHSC). However, all exposure should be kept to the least possible levels as over-exposure to any chemical may result in enhancement of pre-existing adverse medical conditions and/or allergic reactions. Exposure standards for individual constituents are listed above.

**Engineering controls:** Ensure ventilation is adequate and that air concentrations of components are controlled below quoted Exposure Standards. Keep containers closed when not in use. Vapour heavier than air – prevent concentration in hollows or sumps. DO NOT enter confined spaces where vapour may have collected. Where vapours or mists are generated, particularly in enclosed areas, and natural ventilation is inadequate, a flameproof exhaust ventilation system is recommended.

### Personal Protective Equipment:

**Respiratory Protection:** Avoid breathing of vapours/mists. Where ventilation is inadequate and vapours/mists are generated, the use of an approved respirator with filter complying with AS/NZS 1715 and AS/NZS 1716 is recommended; however final choice of appropriate breathing protection is dependant upon actual airborne concentrations and the type of breathing protection required will vary according to individual circumstances. Expert advice may be required to make this decision. Reference should be made to Australian Standards AS/NZS 1715- Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716- Respiratory Protective Devices.

**Eye Protection:** Chemical safety glasses or face shield recommended as appropriate. Final choice of appropriate eye/face protection will vary according to individual circumstances including methods of handling or engineering controls as determined by appropriate risk assessments. Eye protection should conform to Australian/New Zealand Standard AS/NZS 1337- Eye Protectors for Industrial Applications.

**Hand Protection:** Impervious gloves recommended as appropriate. Final choice of appropriate glove type will vary according to individual circumstances, including methods of handling or engineering controls as determined by appropriate risk assessments. Refer to AS/NZS 2161 Occupational protective gloves- Selection, use and maintenance.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance</b>	Clear orange liquid.	<b>Melting Point</b>	100 °C
<b>Boiling Point</b>	100 °C	<b>Solubility in Water</b>	All Dilutions
<b>Specific Gravity</b>	1.01	<b>pH Value</b>	12.0+/- 0.5
<b>Vapour Pressure</b>	Not Known	<b>Flash Point</b>	Not Applicable
<b>Flammability</b>	Non Flammable		

## 10. STABILITY AND REACTIVITY

<b>Chemical stability:</b>	Stable under normal conditions of storage and handling.
<b>Conditions to avoid:</b>	Heat, flames, ignition sources and incompatibles.
<b>Incompatible materials:</b>	Strong Alkalis, Acids, oxidizing agents.

## 11. TOXICOLOGICAL INFORMATION

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

**Ingestion:** DO NOT induce vomiting, as aspiration may occur and cause lung damage. Give a glass of water. If poisoning occurs, contact a doctor or Poisons Information Centre. Phone 13 1126.

**Eye contact:** Will cause irritation to the eyes, with effects including; tearing, pain, stinging and blurred vision. Depending upon duration of exposure, eye damage may occur.

**Skin contact:** Will cause irritation to the skin, with effects including; Redness, itchiness, and possible dermatitis.

**Inhalation:** May cause irritation to the nose, throat and respiratory system with effects including: Dizziness, headache and loss of co-ordination.

**Long Term Effects:** Prolonged and repeated skin contact may cause drying with cracking, irritation and possible dermatitis following. As with any chemical product, contact with unprotected bare skin: inhalation of vapour, mist or dust in work place atmosphere: or ingestion in any form, should be avoided by observing good occupational work practice.

**Toxicological Data:** No toxicology data is available for this product.

## 12. ECOLOGICAL INFORMATION

**Ecotoxicity:** Not Severe.

**Mobility:** Readily dilutes with water.

**Persistence degradability and mobility:** Readily Biodegradable.

**Aquatic toxicity:** No data is available for this material.

## 13. DISPOSAL CONSIDERATIONS

**Disposal methods:** Refer to State Territory Land Waste Management Authority. Dispose of material through a licensed waste contractor. Do not hose spills down drains, sewers or waterways, d-Limonene may be toxic to aquatic organisms. Move leaking containers to well ventilated area. Contact your local waste disposal authority for advice, or pass to a licensed waste disposal company for disposal. Advise flammable nature.

## 14. TRANSPORT INFORMATION

<b>Road and Rail Transport</b>	Not Classified as Dangerous Goods by the criteria of the Australian Dangerous Goods Code (ADG Code) for Transport by Road and Rail; NOT DANGEROUS GOODS.
<b>UN No:</b>	Non Allocated.
<b>Class-primary:</b>	Non Allocated.
<b>Packing Group:</b>	Non Allocated.
<b>Proper Shipping Name:</b>	Non Allocated.
<b>Hazchem Code:</b>	Non Allocated.

## 15. REGULATORY INFORMATION

**Classification:** This material is non-hazardous according to criteria of Safe Work Australia; NON HAZARDOUS SUBSTANCE.

All the constituents of this material are listed on the Australian Inventory of Chemical Substances (AICS).

## 16. OTHER INFORMATION

This SDS summarizes to our best knowledge at the date of issue, the chemical health and safety hazards of the material and general guidance on how to safely handle the material in the workplace. Since Topline Paint Pty Ltd cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material. Persons dealing with the products to which this information refers do so entirely at their own risk. Topline Paint Pty. Ltd. will accept no responsibility what so ever for the consequences of the use or misuse of this product.
